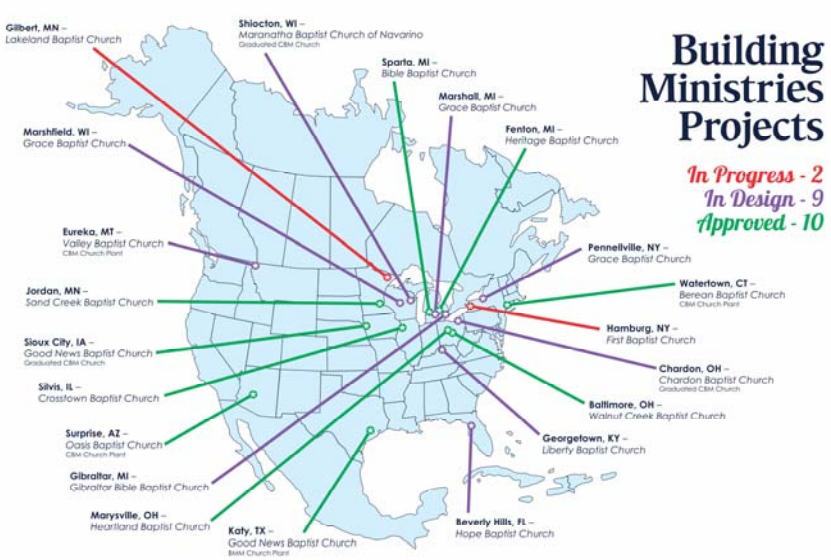
Constructing Churches & Lives for Christ

14250 18 Mile Road
Gowen, MI 49326 • 616-894-0849

Serving with:
Continental Baptist Missions

Haggai 1:7-8

February 2021



There are several projects in the planning stage. Please pray for Dallas as he meets with churches, coordinates, and works on drawings for these future projects. There are currently no active building project sites. The timing of the last project being completed was late last fall, and not conducive to beginning another project with winter moving in. The CBM missionary builders are taking advantage of this time to report back to supporting churches, and are anticipating beginning the next projects in Camp Douglas WI and in Charden OH in early spring.

~ ~ ~

We were able to spend some time with Joshua, Amy, and the kids at Christmas, though it was after the fact due to illness. In October, Nancy had a pulmonary function test which affected her Biotoxin Illness, and she spent several days recuperating. She was just getting back on her feet, when our furnace malfunctioned, and there was a brief odor. This also affected her Biotoxin Illness. Unfortunately it was the most severe setback that she has had. She is back on her feet now and adjusting to a new normal. It has been over a year since she has had just a whisper for voice. A small amplifier helps her to be heard a bit better when needed. We were thankful for the ability for Dallas to work from home during this time especially!

~ ~ ~

God is good! Yes, He is good all the time! Our earthly future may be uncertain, but God is always certain. We are so thankful knowing that God is always in control. We are also very thankful for our faithful family of supporters - both through prayer and finances. It is a privilege to serve alongside each of you as we serve our great God and Savior together!

Thank you!

Laborers Together for Him,

Dallas & Nancy
